

SPORTident ComCard Pro

May 2015

The ComCard Pro's patent-pending design guarantees zero deviation of the compass needle and at the same time offers the comfortable SPORTident punching experience that you have come to rely on.

The electronics hide under your thumb for optimal, distraction-free orienteering. Building on the proven SI-Card10, the device stores up to 128 punches. ComCard Pro comes with a selection of high caliber capsules to best meet athletes orienteering style.

The next generation of the SPORTident ComCard

- ▲ ComCard Pro is made for sportive orienteering
- ▲ The SPORTident ComCard combines SI-Card10 and high caliber compass in one single, beautiful device
- ▲ The patent-pending design guarantees zero deviation of the compass needle while at the same time offering a comfortable punching experience
- ▲ The electronics are placed underneath the runner's thumb for optimal, distraction-free orienteering
- ▲ Left-handed and right-handed versions of the SPORTident ComCard Pro are available

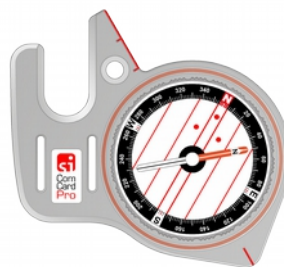

The SPORTident ComCard Pro is available with four high caliber capsules:

Fast

Rainbow

Stable
