95042	SPORTident Orienteering App 100+ Subscription, per year ⁽⁷⁾	On request

Prices do not include VAT, except for SPORTident Orienteering App Subscriptions ⁽⁷⁾. Unless otherwise agreed, prices are valid for a hiring period of a maximum of six days for a two-day sport event at the weekend with two days of preparation and two days for wrap-up. Pricing for longer hiring periods are available upon request. Shipping costs are not included. Prices are subject to change without prior notice.

⁽¹⁾ Includes elastic bands (14cm or 25cm in length) for the SI-Cards. The customer should indicate the desired band length. The elastic bands are delivered separately from the cards, the customer needs to attach each band to each card. For hygienic reasons, bands are cleaned after each use. Therefore, in addition to the hiring prices for the SI-Cards, article 93301 applies: clean elastic bands. The customer needs to remove the bands from the cards after use. Otherwise the removal of the bands will be charged, see article 93300.

⁽²⁾ The online services, articles 95012 up to 95014, are included in the hiring prices for SI-Cards. Hiring of 100 or more SI-Cards includes a maximum of two SiTiming day licenses. The licenses are only valid for the event the SI-Cards are hired for.

⁽³⁾ Requires article 95012 for data transmission.

⁽⁴⁾ Includes data transmission, management interface and API usage for up to 100 software clients, charged per athlete per day (1 athlete-day = unique SPORTident card id per day). Pricing is independent of the number of modems used. Usage and costs can be monitored in the management interface.

⁽⁵⁾ Online results are listed at <https://timing.sportident.com> and include result lists by course, category, detailed results, search, comparison of results, athlete certificates and related functionality. Online results include final results (published after the race) as well as preliminary live results (published and updated throughout the race). Customisation of the results presentation is available upon request. For presenting results online, the following software

programs and formats are supported: SiTiming (JSON for MTB Enduro, IOF-XML for orienteering), SportSoftware OE2003 (CSV), SportSoftware OE2010 and OS2010 (IOF-XML 3.0). Other formats can be supported upon request.

⁽⁶⁾ Online entries are available at <https://timing.sportident.com>. Please contact us for details and for customisations at timing@sportident.com.

⁽⁷⁾ Prices are end customer prices for customers worldwide and include applicable taxes.

Terms and Conditions

1. Inquiries to hire equipment from SPORTident should be made as early as possible, but with a minimum of four weeks before the intended use. For short-term inquiries we will charge 10% of the total value of the order additionally. Any request for modification has to be communicated to SPORTident at least three working days before the date of shipment.
2. Hiring period
 - a. The hiring period starts when the customer receives the equipment and ends when the customer hands the equipment over to the shipping company for shipment back to SPORTident.
 - b. The hiring period is agreed-upon with the customer and stated on the Acknowledgement of Order or the Delivery Note.
 - c. The standard hiring period of six days is intended for a two-day sport event at the weekend with two days of preparation and two days for wrap-up.
3. Liability
 - a. The customer is liable for all losses and damages to the equipment during the hiring period. Damaged equipment will be invoiced according to the current SPORTident sales price list.
 - b. SPORTident's liability is limited to the value of the order as it is written on the Acknowledgement of Order or the Delivery Note.
4. Shipment
 - a. Shipment of the equipment from SPORTident to the customer is the responsibility of SPORTident.
 - b. Shipment costs from SPORTident to the customer are in addition to the equipment hiring prices and will be invoiced to the customer. Our offered shipping prices are preliminary prices. SPORTident uses express delivery for all shipments excluding SI-Stations.
 - c. SPORTident will ship the equipment to arrive at its destination at the beginning of the hiring period, given regular delivery times. SPORTident is not liable for late deliveries in the case of irregularities or delays during delivery.
 - d. Shipment of the equipment from the customer back to SPORTident is the responsibility of the customer.
 - e. Shipment costs from the customer to SPORTident are covered by the customer.
 - f. A shipping service providing parcel tracking and guaranteed maximum delivery time must be used for shipment from the customer to SPORTident. Express delivery has to be used, without exception. We strongly recommend to use UPS, TNT, FEDEX or DPD for shipping. We do not recommend to use DHL.
 - g. The customer has to provide SPORTident with the parcel tracking code and the expected arrival date of the equipment directly after shipping the equipment.
 - h. Taking into account the regular delivery times to the place of destination, the customer sends the equipment so that it arrives at SPORTident on or before the return date indicated on the delivery note. If the equipment arrives at SPORTident after the return date written on the delivery note, SPORTident will charge 15% of the total value of the order as it is written on the acknowledgement of order or the delivery note for each day

exceeding the return date. The customer is not liable for late deliveries in the case of irregularities or delays during delivery.

5. SPORTident Cards

- a. SPORTident cards are hired with elastic bands (14cm or 25cm in length). The customer should indicate the desired band length. The elastic bands are delivered separately from the cards, the customer needs to attach each band to each card. For hygienic reasons, bands are cleaned after each use. The customer needs to remove the bands from the cards after use and before shipping them back to SPORTident.
- b. All hired SPORTident cards must be returned cleaned – as they were delivered – otherwise SPORTident will charge 1 € per unit for cleaning.
- c. When hiring SPORTident cards for a sport event, the usage of personal athlete-owned SPORTident cards must be allowed.

6. SPORTident Stations and Modems

- a. SPORTident delivers SPORTident stations to the customer prepared and configured for their intended use, according to the requirements specified by the customer.
- b. Rechargeable stations are delivered uncharged and need to be charged by the customer prior to usage. Equipment to charge the stations is included in the delivery.
- c. All hired SPORTident stations must be returned cleaned – as they were delivered – otherwise SPORTident will charge 3 € per unit for cleaning.
- d. The customer must not open a hired SPORTident modem SI-GSM. It is not allowed to remove or exchange the SIM card. Unauthorised openings of the SI-GSM will be charged with 25 € per modem.
